REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

No prior art has been found teaching or suggesting a method for identifying viral positive biological fluid donation in the fewest number of PCR cycle. The method comprises providing a multiple biological fluid donations, and defining an n-dimensional matrix constructed as a regular 8X8X8 array in which each array has n-dimensions. The matrix has a multiple of elements. Each element is identified by a respective matrix notation and defined by an intersection of the n-dimensions of the matrix. The method also comprises forming subpools in which each subpool contains an aliquot from all samples identified by a matrix notation and is formed by different indices, for example, forming subpools of aliquots from sample identified by identical r indices but different c and s indices.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. The terminal disclaimer, filed 7/13/99, was acknowledged and entered.
3. The Declaration is defective because it is a lack of its containing reference to the CIP parent under the duty to disclosure. A substitute oath or declaration is required.
